

1 Geometry

② 3D Consistency

③ Visual Quality

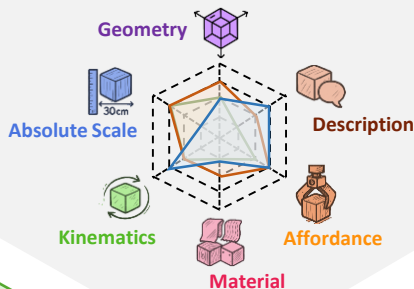

Measure the absolute dimension of 3D assets

Dimension	GT (cm)	Generated (cm)
Width (W)	0.60	0.61
Depth (D)	0.55	0.54
Height (H)	0.84	0.79

PhysX-Bench

6 Dimensions

2

Description

Part-level description

① Alignment score

This is the main body of the pistol, including the slide and frame, typically made of steel.

② Precision score

The trigger is a small steel lever located inside the trigger guard.

The muzzle is the front end of the barrel where the bullet exits.

① Relative Ranking plausibility

② Salient Misranking

③ Overall Common-Sense Plausibility

Affordance

3

① Prior-part motion consistency

② Revealed-entity plausibility

③ Global articulation Coherence

5 Kinematic

Physical behaviors

① Free fall

② Drop in water

Material property	GT	Generated
Density (g/cm ³)	7.85	7.82
Young's Modulus (Gpa)	200	185
Poisson's Ratio	0.30	0.28
